

LIMITLESS LEARNING

made real

Spark collaborative learning anywhere, anytime

DELL TECHNOLOGIES AND MICROSOFT

Transform your education environment and empower students and educators to engage in immersive, collaborative experiences anywhere, anytime. Dell Technologies and Microsoft provide adaptable, scalable tools that expand and enhance learning beyond the traditional classroom — improving outcomes with 24/7 access.

Transform the education environment

The learning environment is evolving beyond the campus walls, and the combined power of Dell Technologies and Microsoft brings the classroom to students wherever they learn best.

Supported by Dell infrastructure that allows 24/7 access to resources, Dell Latitude laptops and Microsoft 365 enable students to gain new skills whether they're interacting face-to-face or remotely. And, teachers gain the

flexibility to do more and personalize the curriculum in a way that meets students' individual needs.

Create a consistent experience anywhere

Support a blended approach to learning and improve productivity with easy access to tools and educational resources. The portability of the durable and lightweight Dell Latitude 3310 laptops, coupled with Microsoft 365's suite of immersive, cloud-based apps, ensure learning continuity.

SUPPORTING YOUR DIGITAL TRANSFORMATION JOURNEY

DEVICES

Built for today's blended education environment, Dell Latitude 3310 offers best-in-class durability, extended battery life, a scratch-resistant keyboard and Gorilla Glass 2-in-1 display. Students can bring this sturdy device wherever their learning discoveries take them, without the worry of accidental drops.

SOFTWARE

Microsoft 365 provides a single, simple experience that promotes collaboration and creativity for students and educators. They can set up a classroom anywhere and immerse themselves into personalized experiences that impact every student's success.

SERVICES

Go beyond the technology with expert guidance and end-to-end support from your Dell partner. A range of support options and services help you deploy a customized solution and protect your investment year-round.

INFRASTRUCTURE

Dell's infrastructure and network resources enable 24/7 access to cloud services and Microsoft 365 solutions. You can scale your technology affordably, in a secure and safe environment.

Students can launch a project in the classroom, then go anywhere the learning takes them to work independently or in teams. Taking ownership of their own experience, they can learn without limits and use the same tools they love.

Enhance collaboration in and outside the classroom

The skills that students need to succeed in the future are built around collaboration that doesn't stop when the bell rings. With Teams and Latitude's versatile 2-in-1 displays, your faculty and students can share their world of ideas from any place. Help them discover more ways to unleash their creativity and innovate together, whether they're in the same room or miles away.

Scale and adapt your technology to your changing needs

Dell's agile infrastructure, virtualization and cloud solutions provide a foundation for a secure and safe access to Microsoft 365 around the clock. As you embrace more remote opportunities, the technology scales efficiently while maintaining affordability.

Get a team of dedicated experts

Gain the most value from your technology with end-to-end support from your solution partner. Our experts will guide you through the options as you customize the technology to your needs, then help you deploy it in your environment. And you can rely on us for ongoing, year-round support for services such as repairs, data security and lifecycle management.
